SELECT \* FROM CUSTOMER;

EMAIL	LASTNAME	FIRSTNAME	PASSWORD
nima2021996@gmai.com	Adibpour	Nima	123456789
christophe.rezk@gmail.com	Rezk	Christophe	987654321
rickardo.james@gmail.com	James	Rickardo	skhfaigsd
sarah.turner@gmail.com	Turner	Sarah	jfu2895nj
ted.muller@gmail.com	Muller	Ted	jbid841nl

We have truncated our result to the 5 insert commands asked for in this question. But we have around 100 rows in all tables for the "creativity" question.
